

Ranking the schools

Important notes to the rankings

In this table, schools are ranked (on the left hand side of the page) in descending order (from 1 to 950) according to their academic performance as measured by the *Overall rating* (shown on the right hand side of the table) for the school year 2007/2008. Each school's five-year average ranking and *Overall rating* are also listed. The higher the *Overall school rating* (out of 10), the higher the rank awarded to the school. Where schools tied in the *Overall rating*, they were awarded the same rank. Where fewer than five years of data were available "n/a" appears in the table.

Not all the province's elementary schools are included in the tables or the ranking. Of all the schools in the province reporting FSA results, 952 are included in this *Report Card*. Included are schools that enrolled at least 15 students in both grade 4 and

grade 7. Also included are eligible schools (noted in this table with a double asterisk) whose students advanced to a middle school after grade 5 or grade 6 (see Elementary Schools included in this *Report Card* section in the text). Excluded are those schools that did not generate a sufficiently large set of student data to enable the calculation of an *Overall school rating* for the school year 2007/2008.

The exclusion of a school from the *Report Card* should in no way be construed as a judgement of the school's effectiveness.

IMPORTANT: In order to get the most from the *Report Card*, readers should consult the complete table of results for each school of interest. By considering several years of results—rather than just a school's rank in the most recent year—readers can get a better idea of how the school is likely to perform in the future.

Rank		School name	City	Overall rating
